

DOPLAR™ Test

Intense™ Focus versus Intense™

Intense™ Focus
 R2S™ Pearl Reactive
 1500-grit Polished
 RAD-E™ Core

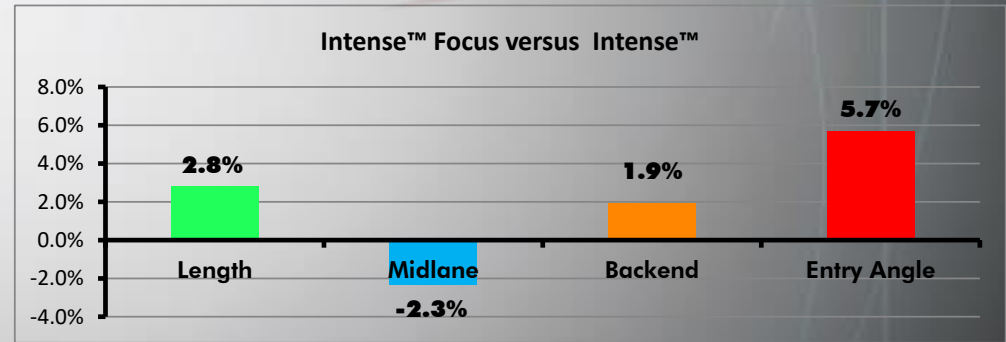

→ **Intense™ Focus**
 Laydown: 21.95
 Launch Angle: -2.30°
 Break Point: 41.22
 Impact Point: 17.50

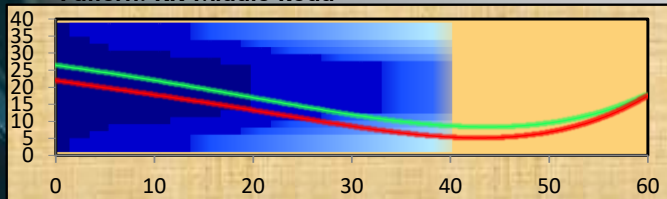

Intense™
 R3S™ Pearl Reactive
 1500-grit Polished
 RAD-E™ Core

→ **Intense™**
 Laydown: 26.43
 Launch Angle: -2.50°
 Break Point: 42.57
 Impact Point: 17.31

- The Intense created an earlier break point than the Intense Focus by 1.5'.
- The Intense read the midlane well even with a polished surface.
- The Intense Focus had more overall angle and backend.
- The Intense Focus gave a more "skid/flip" reaction.

Pattern: KK-Middle Road
